Federal Item Identification Guides (FIIGs) prescribe standard requirements and formats for identifying an item of supply by those characteristics necessary to differentiate it from any other item of supply; and establish a means to the Federal Logistics Information System (FLIS) data file. All FIIGs and changes are published in hard copy. This book lists the basic FIIGs and changes.

The make-up of this document consists of the following entries:

- Part 1: "A" FIIGs Numerically
- Part 2: New Concept FIIGs Numerically
- Part 3: "T" FIIGs Numerically
- Part 4: All FIIGs Alphabetically
